B E A C

VITAMIN C
PROVITAMIN B5
VITAMIN B3
VITAMIN E ACETATE
VITAMIN A PALMITATE

complex vitamin

DEFINITION

Complex Vitamin BEAC-WS is known to be well absorbed into the upper layer of the skin and hair. Vitamins included in this complex are essential components of many biochemical reactions within skin cells that are necessary for them to function properly and ensure proper barrier function, hydration, elasticity, and strength both for skin and hair.

BENEFITS

Complex Vitamin BEAC-WS has moisturizer properties, which can play an important role in keeping skin, hair, and nails looking and feeling healthy. It can also help to support a healthy skin barrier, as well as, accelerates skin cell renewal, tightens the pores, and decreases inflammation and redness.

Because of these benefits, Complex Vitamin BEAC-WS is a must-have ingredient in skin care, hair care, and nail care products, including cosmetics, hair sprays, shampoos, and conditioners.

FUNCTION

Along with the ability to retain the skin's moisture, Complex Vitamin BEAC-WS can also help to support its barrier function, which in turn helps to protect the skin from irritation. With nails, it can also help to protect against the harmful effects of nail polishes and harsh environmental conditions.

ADVANTAGES

- Only oil-soluble vitamins A and E are easily available in completely water-based formulas.
- With a single raw material, multiple claims and benefits are presented to the customer.
- The cost of separate stocks for each vitamin is saved.

complex vitamin

VITAMIN B3

PROVITAMIN B5

VITAMIN E ACETATE

VITAMIN A PALMITATE

complex vitamin

DEFINITION

Complex Vitamin BEA-WS helps skin look smoother, brighter, and more radiant with less pigmentation and an overall more even texture by managing cells in the outermost layer of the skin. This vitamin complex protects the skin's barrier helping the skin and hair to retain its moisture levels and shield it from irritation.

BENEFITS

Complex Vitamin BEA-WS serves as a skin and hair healer and protector. When applied in skincare products, it helps relieve the symptoms of irritated skin and scalp, such as itchiness, pain, and discoloration. It also helps unclog pores and keep them clear, which is why it's often found in acne and blackhead treatments.

FUNCTION

By stimulating new collagen production, Complex Vitamin BEA-WS has powerful benefits for the skin, it remains a very gentle skincare ingredient that is easy to work with. It is generally well tolerated on all skin types, including sensitive. This receptive nature extends when niacinamide is used alongside other active ingredients and works well with antioxidants, retinol, chemical exfoliants (AHAs & BHAs), and several other skin and hair care ingredients.

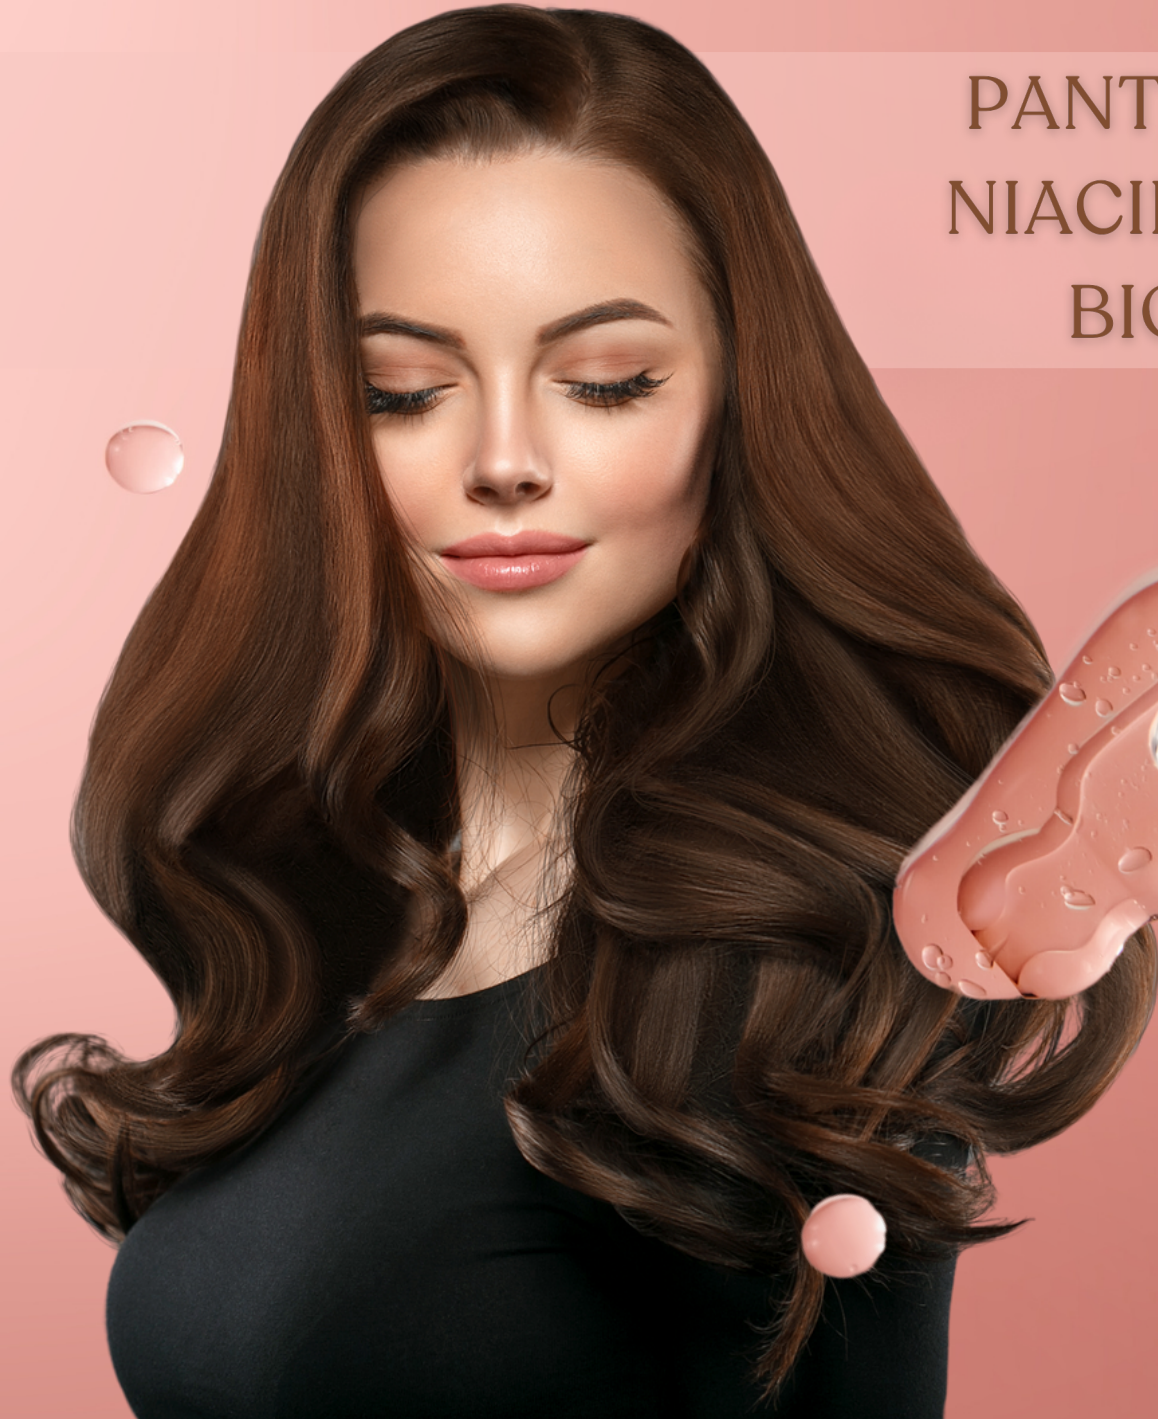

ADVANTAGES

- Only oil-soluble vitamins A and E are easily available in completely water-based formulas.
- With a single raw material, multiple claims and benefits are presented to the customer.
- The cost of separate stocks for each vitamin is saved.

complex vitamin

PANTHENOL
NIACINAMIDE
BIOTIN

complex vitamin

DEFINITION

Complex Vitamin B-WS has a multitude of benefits from synthesising keratin to reducing inflammation, boosting circulation, and redness to promoting hair growth, reducing loss, promoting hair thickness, keeping in moisture, and protecting against environmental damage.

BENEFITS

By increasing keratin, Complex Vitamin B-WS is essential for healthy hair structure, health, and strength. It also helps ceramide synthesis, which is the glue between protein scales and helps to mend brittle hair. It reinforces hair resistance, thus making it stronger. For topical skin treatments, this ingredient is suitable to reduce redness and inflammation, treat eczema, acne, and other inflammatory skin conditions as well as minimizing pores, and keeping skin smooth, and moisturized.

FUNCTION

Complex Vitamin B-WS helps to improve blood flow and circulation to the scalp, providing increased oxygen and other nutrients right where your hair needs them. It thus creates an optimal environment to encourage hair growth. Your hair will have an increased body, sheen, and suppleness. Your hair texture will improve and any hair that has been physically or chemically damaged can be rebuilt with the keratin-boosting properties.

ADVANTAGES

- With a single raw material, multiple claims and benefits are presented to the customer.
- The cost of separate stocks for each vitamin is saved.
